

MEET BECKY HOAG

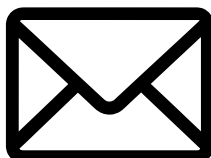

“

While I'm a more recent Midwest transplant (originally from the San Francisco Bay Area, California), I am passionate about advocating for Wisconsin's people and local environment. I represent Milwaukee County where I reside on the climate, natural resource, and social media committees.

I work as a communications and event planning contractor for the City of Milwaukee's Environmental Collaboration Office, and I am finishing an online Master's in Energy and Environmental Management from the University of Connecticut. I have BSs in environmental science and journalism and certificates in climate stewardship and sustainable environmental planning and management.

Previously, I worked as a sustainability coordinator fellow for a Bay Area city where I helped implement parts of their climate action plan. My career goal is to work in city sustainability while continuing to communicate environmental issues.
